Dinosaur Fun Facts

- The biggest dinosaur egg ever found was the size of a football.
- A lot of dinosaurs had big heads, but not much brain inside. Most of the space was taken up with muscle and bone instead.
- There were over 800 different kinds of dinosaurs.
- Crocodiles and alligators have been snapping in rivers since the time of the dinosaurs, and they still look very much the way they did back then.
- The smallest dino was Compsognathus, which was the size of a chicken and had a very long tail. It ran after insects.
- Dinos that used their tails to whack their enemies had four feet and ate plants.
- Dinos that used their tails for balance had two feet and two tiny arms, and they were often meat-eaters.
- Nobody knows what color dinosaurs were. They could have been blue, or pink with purple spots, but probably they were a greenish-brown to blend in with their background.
